SUMMARY

Organized and Skilled developer with 10.6 years of professional experience in Dynamic and deadline-driven environments. Developed 8 applications which involve different challenges and complexities. Well versed on Angular and having knowledge on Javascript, Typescript, Mysql.

EXPERIENCE SUMMARY

- A highly motivated and committed Web Developer with 10.6 years of Experience in the field of Angular 2 to Angular 17.
 - Having Experience in SCSS, HTML, HTM-5, JavaScript for developing User Interface.
 - Hands on experience in using Angular 2 & above Versions.
 - Expertise in MVC architecture.
 - Experience in working with Core Java, JSP.
 - Considerable experience in Java Server Pages (JSP) for developing User Interface.
 - Knowledge in Object Oriented Programming concepts.
 - Possess excellent communication and interpersonal skills, Innovative, positive attitude and perseverance to undertake challenging jobs.
-

SKILLS

JavaScript, Angular 2 to 17, Redux, RXJS Operators, **Tools:** Eclipse, Net Beans, VS Code.
Typescript, Html, SCSS, Html5, JavaScript, MySQL, Java.

EXPERIENCE

Principal Consultant - Delivery / InitiateFirst - Hyderabad, Telangana 06/2024 - Current

- Supporting and Maintaining Existing Application.
- Developing User Interface by using Html, SCSS, TypeScript, Bootstrap .
- Ticket Analysis.
- Attending Daily Scrum Meetings.
- Designing and Developing Templates Using Angular 17.
- Involved in Analysis, Coding and Bug Fixing.
- Convert java code into Javascript.

Analyst - Software / PurpleTalk - Hyderabad, Telangana 09/2019 - 05/2024

- Supporting and Maintaining Existing Application.
- Developing User Interface by using Html, SCSS, TypeScript, Bootstrap .
- Ticket Analysis.
- Attending Daily Scrum Meetings.
- Designing and Developing Templates Using Angular 17.
- Involved in Analysis, Coding and Bug Fixing.

Senior Software Engineer / ORO Tech Services - Hyderabad, Telangana

05/2019 - 09/2019

- Supported Client Project (Imagine Communications) by creating User Interfaces and Developing New Templates Using **Angular7**.
- Supporting and Maintaining Existing Application.
- Ticket Analysis.
- Attending Daily Scrum Meetings.
- Designing and Developing Templates Using Angular 11.
- Analyzing the Bugs and categorizing into Client Tool.

Associate Software Engineer / Infoways Technologies - Visakhapatnam, Andhra Pradesh

05/2014 - 05/2019

- Developing server-side code by using MVC Architecture.
- Developing User Interface by using Html, CSS, JavaScript, jQuery & Bootstrap .
- Maintaining Backend Technologies like Struts 2.0, Spring MVC, Hibernate & MySQL.
- Designing and Developing Templates Using Angular 2.
- Involved in Analysis, Coding and Bug Fixing.
- Involved in unit testing.

EDUCATION AND TRAINING

SPACES Institute for P.G studies, AP

2011

Master of Computer Applications: Computer and Information Sciences

Govt. Degree College - Narsipatnam, AP

2007

Bachelor of Science: Computer Science and Programming

PROJECT DETAILS

Project #1:CA Business Service Insights (BSI) (July 2024)

Client : Broadcom
Role : Developer
Organization : Broadcom
Team Size : 10
Technologies :Angular 17,Dotnet(Backend).

Description:

CA Business Service Insights provides performance management of service level agreements (SLAs) and IT services. This solution helps organizations articulate the value of their IT in business terms, and understand service performance. Focuses on contractual service level management. This focus helps the organization understand the impact of operational performance on your contractual obligations. This SLA management solution helps the company communicate the value of the services they deliver, enhancing performance of contractual SLAs.

Responsibilities:

- Followed Agile Methodology which involves daily scrums meetings and Sprint meetings (planning, Review) to meet deadlines and expectations.
- Design, develop and create pages in the application.
- Performed Code reviews

Project #2:Zomadica(PulseVet) (Nov 2023)

Client : Zomadica
Role : Developer
Organization : PurpleTalk
Team Size : 4
Technologies :Angular 17,Java(Backend).

Description:

PulseVet is a worldwide leader in regenerative veterinary medicine committed to only the highest standards in quality and innovation. PulseVet's technology is the trusted source for veterinary partners across the globe. Top veterinarians and surgeons know there is only one choice to speed healing when it matters most.PulseVet is focused on providing only clinically tested and proven solutions to discerning veterinarians and surgeons. With a reputation as the authority on shock wave, PulseVet understands the importance of bringing only the best products and services to the industry. Imitated, yet never matched, PulseVet is uncompromising when the health of animals is at stake.

Responsibilities:

- Followed Agile Methodology which involves daily scrums meetings and Sprint meetings (planning, Review) to meet deadlines and expectations.
- Design, develop and create pages in the application.
- Performed Code reviews

Project #3:Yield Sustainability Field(YSR) (2022 May 2023 Sep)

Client : AP Govt
Role : Developer
Organization : PurpleTalk
Team Size : 12
Technologies :Angular 16,Java(Backend).

Description:

The YSR APP allows access to only Government Employees working at RBKs, MAOs, ADAs. YSR App ensures the genuineness of the Attendance and Tasks performed through Geofence features around Offices. This ensures promptness in Employees and helps farmers to obtain better services through them. The Performance grading of Employees is done by the Application without any manual intervention and issues Digital Certificates to the

RBK Staff, MAOs and ADAs, who are in Excellent Category based on Tasks performed & Attendance. For VAAs we implemented RBK construction to track the construction process of building at each level. YSR application shows Live Dashboard for RBK staff/ MAO /ADA Attendance. During Registration, the RBK Staff, MAO and ADA have to capture their office GPS location in the profile section. Each Staff Attendance is being recorded by the App. The App has two way communication features, the Field staff can share their Feedback to the Senior Officers and Senior Officers can send Information through Notifications. The main vision of this application is to ensure all employees work towards the welfare of farmers and achieve the objectives of the department within the given timelines. This application enhances productivity and to identify the employees who are performing better and who need to be trained more to improve their efficiency.

Responsibilities:

- Followed Agile Methodology which involves daily scrums meetings and Sprint meetings (planning, Review) to meet deadlines and expectations.
- Design, develop and create pages in the application.
- Performed Code reviews

Project #4: Insight (Quality Control) (2021 May 2022 May)

Client : AP Govt
Role : Developer
Organization : PurpleTalk
Team Size : 12
Technologies : Angular 9, Java (Backend).

Description:

Insight app for the collection of Agri. inputs such as Seeds, Fertilizers & Pesticides and checking for quality. The Department of Agriculture, Govt. of Andhra Pradesh is setting up Dr YSR Agri Testing Labs to ensure supply of quality Agriculture inputs in the market. The Labs receive samples drawn by Agri Input Inspectors and the sampling process is manual and discretion in sampling is noticed. The department will replace the manual sampling system with an automated sampling system called "Unified Digital Platform". This platform connects Input manufacturers, Input Dealers, Sample collection team, Input Inspectors, Regional Coding Centers, Integrated Agri Labs and Farmers.

Responsibilities:

- Followed Agile Methodology which involves daily scrums meetings and Sprint meetings (planning, Review) to meet deadlines and expectations.
- Design, develop and create pages in the application.
- Performed Code reviews

Project #5: Senzit (2020 Mar 2021 May)

Client : MANN+HUMMEL
Role : Developer
Organization : PurpleTalk
Team Size : 12
Technologies : Ionic, Angular 9, Ionic4, Java (Backend).

Description:

Senzit, a MANN+HUMMEL product, the MANN+HUMMEL Group is a German manufacturing company headquartered in Ludwigsburg within the metropolitan area of Stuttgart. The company develops products and

distributes liquid and air filter systems, intake systems and cabin filters. We developed a cross platform Mobile App for its Smart HD filters which will show the filter lifetime among other features and functions.

Responsibilities:

- Followed Agile Methodology which involves daily scrums meetings and Sprint meetings (planning, Review) to meet deadlines and expectations.
- Design, develop and create pages in the app.
- Performed Code reviews

Project #6: JML (2019 Oct 2020 Feb)

Client : JML
Role : Developer
Organization : PurpleTalk
Team Size : 8
Technologies : Ionic, Angular 7, HTML, LESS, Bootstrap.

Description:

Jml is a mobile Enterprise App (Android, iOS) which is developed using angular ionic. Basically the app is related to monitor the activities. The app displays the progress of entire activities.

Responsibilities:

- Followed Agile Methodology which involves daily scrums meetings and Sprint meetings (planning, Review) to meet deadlines and expectations.
- Design, develop and create pages in the app.
- Performed Code reviews

Project #7: Aureus Bullion (2014 May 2016 Apr)

Client : Aureus
Role : Developer
Organization : Infoways
Team Size : 8
Technologies : Spring, Hibernate, HTML, Java script, Bootstrap.

Description:

A Bullion project is used to buy/sell four precious metals-gold, silver, platinum and palladium accordingly to the prices of the bullion market. This project deals with numismatic, scrap and gems. It is used to maintain the sales & purchases-payments details. This involves the inventory maintenance pertaining to sales & purchases. This project has twelve modules.

Responsibilities:

- Followed Agile Methodology which involves daily scrums meetings and Sprint meetings (planning, Review) to meet deadlines and expectations.
- Design, develop and create pages in the app.
- Performed Code reviews

STRENGTHS

- Flexible set of problem-solving skills.
 - Adaptability in learning new technologies.
 - Self-Confident and being positive in all aspects.
 - Team spirit with good leadership qualities
